PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in full-stack web development, mobile application development, AI/ML, and cloud technologies. Skilled in building end-to-end software solutions using modern frameworks, databases, and deployment tools, with internship experience and a published research paper.

EXPERIENCE

Elite Softwares Pune, Maharashtra
Software Engineer Intern – Full Stack Development **Feb 2026 – Jul 2026**

- Worked on frontend and backend development, database management, and server-side project deployment.
- Gained practical exposure to scalable web application development and the complete software development lifecycle.

AICTE – Google AI-ML Virtual Internship Virtual
AI/ML Virtual Intern **2026**

- Gained hands-on exposure to machine learning fundamentals, model training, and AI application development.

AppVishwa Software Solutions Pvt. Ltd. Rajaramnagar, Maharashtra
Mobile Application & Software Development Intern **Jun 2024 – Jul 2024**

- Worked on mobile application UI/UX design and backend integration using Java and Android Studio.

PROJECTS

TestForge: MSBTE Exam Scheduling System **2025**
Next.js, FastAPI, MySQL, Docker, Clerk Authentication

- Developed a comprehensive exam scheduling and management system for Rajarambapu Institute of Technology.
- Handled UI design, database architecture, and deployment as a full-stack developer.

Pharmaceutical Inventory and Retail Management System **2024**

- Developed a platform for stock tracking, billing, supplier management, and sales reporting for pharmaceutical businesses.
- Designed a user-friendly interface to support efficient retail workflows.

TECHNICAL SKILLS

Languages:	Java, Python, C, C++, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks:	Next.js, React.js, Express.js, FastAPI, Django
AI / ML:	Machine Learning, Generative AI, RAG, LLM Integration, Vector Databases
Databases:	MySQL, PostgreSQL, MongoDB, Redis
Cloud & DevOps:	AWS, Docker, Git, GitHub Actions, CI/CD
Tools & Platforms:	Postman, Clerk, Supabase, Stripe, Power BI, Figma, Vercel, Android Studio
Concepts:	REST APIs, JWT, OAuth 2.0, RBAC, System Design Fundamentals

LEADERSHIP & EXTRACURRICULAR

Member – Google Developer Groups (GDG) on Campus **2024 – Present**
AISSMS Institute of Information Technology

- Participated in hackathons, Study Jams, technical workshops, and developer community activities while collaborating with fellow developers and exploring emerging technologies.

EDUCATION

AISSMS Institute of Information Technology Pune, Maharashtra
Bachelor of Technology – Computer Engineering (CGPA : 8.87) **2025 – Present**

Rajarambapu Institute of Technology Rajaramnagar, Maharashtra
Diploma in Computer Engineering – 92.86% **2022 – 2025**

CERTIFICATIONS, RESEARCH & ACHIEVEMENTS

- Google AI-ML Virtual Internship – AICTE, in collaboration with Google;
- **TestForge: MSBTE Exam Scheduling System** published in IJARSCT, Vol. 5, Issue 4, April 2025. DOI: 10.48175/IJARSCT-25162.
- Solved 100+ DSA problems on LeetCode; reached college-level finals in SIH 2025, competing with 100+ teams.
- Runner-Up in Brain Burst – State-Level Technical Event, Trailblazer 2024.
